INS: Tutorial 6

Question 1

```
1   GET /weather HTTP/1.1
2   Host inf.kcl.ac.uk:8080
3   Content—Type: application/soap; \
4                 SOAPAction=http://www.inf.kcl.ac.uk/smiles/weather/Query
5
6   <soap:Envelope
7       xmlns:soap="http://www.w3.org/2003/03/soap—envelope"
8       xmlns:weather="http://www.inf.kcl.ac.uk/smiles/weather">
9       <soap:Header> ... </soap:Header>
10      <soap:Body>
11          <weather:WeatherQuestion>
12              <region>London</region>
13              <date>2009—12—25</date>
14          </weather:WeatherQuestion>
15      </soap:Body>
16  </soap:Envelope>
```

Question 2

```
1   HTTP/1.1 200 OK
2   Date: Fri, 18 Nov 2016 11:14:32 GMT+1
3   Connection: close
4   Server: Apache/1.3.31
5   Content—Type: application/soap
6   Content—Length: 271
7
8   <soap:Envelope
9       xmlns:soap="http://www.w3.org/2003/03/soap—envelope"
10      xmlns:weather="http://www.inf.kcl.ac.uk/smiles/weather">
11      <soap:Header> ... </soap:Header>
12      <soap:Body>
13          <weather:Weather>
14              <snow>PT15H</snow>
15          </weather:Weather>
16      </soap:Body>
17  </soap:Envelope>
```

Question 3

```
1   <html>
2       <head> ... </head>
3       <body>
4           <h1 property="http://purl.org/dc/terms/title">Colours I Like</h1>
5           <ul resource="http://www.inf.kcl.ac.uk/staff/simonm">
6               <li property="http://www.example.org/preferences/likes">
7                   Aquamarine
8               </li>
9               <li property="http://www.example.org/preferences/likes">
10                  Burgundy
11              </li>
12          </ul>
13      </body>
14  </html>
```
